

# B01 B Series Indoor Totem Enclosure

## Key Features

- High Quality Finishes
- Easy Access for Maintenance
- Available for Floor Mounts
- Easy Monitor-TV Mounting

Cletech B01 Totem Enclosure is the most cost-effective product of our product range. The enclosure with its full steel body has all of easy use features as in other products. You can easily mount your monitor and media players to the product with VESA connection points. Thanks to its two-way cover structure, it allows both front or rear access. Totem can be fixed to the floor through the connection holes in the floor flange. All products are painted with electrostatic powder paint on galvanized steel for an attractive appearance.
